Court of Appeals Issues Decision but Fails To Pass on Measure as Whole.

CHARLOTTE N C Feb 22—
The utilities holding company act of 1935 was held partially invalid today by the fourth U S circuit court of appeals but it did nor rule on the constitutionality of the entire act.

rule on the constitutionality of the entire act.

The ruling was on the case of Burco Inc of Baltimore which was seeking to force the trustees of the American States Public Service Co its bankrupt debtor to register with the securities expanses commission.

to register with the securities ex change commission. The question raised as to the constitutionality of the entire act was held not to be a proper part of the particular case and the court refused any opinion as to the validity of the act as it might apply to interestate commerce.

The court held the American States bankruptcy administration case was an intrastate case and was specific in pointing out that the decision applied only to that specific case.

## W. E. MATHIOT GETS **AGE PENSION POST**

appointment of Waiter E. Mathiot of East Bexley avenue as Marion county old age pension investigator was announced today in the office of the state department of aid

was held not to be a proper part of the particular case and the court of the state department of aid refused any opinion as to the validity of the act as it might apply to interstate commerce. The court held the American States bankrupto; administration case was an intrastate case and was specific in pointing out that the decision applied only to that specific case.

The decision was a victory for the grovernment in that it has accepted any pointing out that the government in that it has appoint to avoid a constitutional test of the utilities act on any other case prior to a decision on its suit against the Electric Bond its suit against

W E Martin of Upper San senate commerce committee in the form of an amendment to the go.

construction of 12 dams on the Scholo and Sandusky rivers to flood control purposes Would Remove Local Cost

Would Remove Local Cost
The Sen Donahey amendment
removes the project from the PWA
classification under which it was
originally proposed and held to be
not tensible. The fact that the
counties along the route would
nave had to share a large part of nave had to share a large part of the expense and that the per-man year labor cost would exceed PWA alloy unces resulted in the rejection of the program by the public works administration. The intest move however will make the project an outlight federal project with the entire expense to be carried by the son crament.

The Donahey amendment according to Mr Martin will superceded the recent recommendation of U.S. army engineers for construction of Iour dame on the two rivers.

Has Passed House The construction of Iour dame on the two rivers.

Has Passed House The construction of Iour dame on the two rivers.

It as passed House the school of the last sersion by a fillibuster by ben Ty lings of Mary land Mr Martin said After final action by the senate the Scioto Sandurky amendment must go to ho see and senate conferees.

Mr Martin was one of a group of Chio men to altend a series of

conferences with federal officinis in Washington last week regarding to non-project Other were 13 B to anch plant in Marion appropriate of Chilicothe and Louis Washington approved a Washington news disjunct quoted army engineers and the plan into rifect. The Asson saving conferences with feducal officials

One of the things that has held up final action on the flood con trol program was possibility of the selection of the Scioto liver to the the existern part of the state how ever has removed the last obstacle

ever has removed the last obstacles in the way of considering the central Ohlo rivers for the flood control project

Of the 12 proposed dams one would be situated in the vicinity of Little Sandusky and shother at Bellepoint near Delaware

SATURDAY - PEBRUARY 22 1936

## Bad Boy.

There is a corner reserved somewhere for men who could hand it out more rapilly than their victims could take it Brig Cen William Mitchell found a place in it Wednesday night.

Gen Mitchell commanded the United States air force in the World war He formed certain ideas of what should and shouldn't be done with what was then a newly discovered arm of national defense onit affermu

Being aggressive by nature he saw no resson why he should restrain himself in criticizing his government's aviation policy He stepped on toes he probed tender claces he ruffled fenthers he talked vehimently and at length about many things he didn't like

His reward for being critical was a court martial and ultimately suspension from the service. Rebuilte however merely intensified his obvious desire to be as annoy ing as possible to organizations and in dividuals wishing there were some way to gag him

Gen Mitchell died Wednesday night But he died knowing that all his criticism badnit been spoken in vain. Officials of the Hulled States government had been murmuring behind their hands that maybe Bad Hoy Milchell wasn't such a worth less post after all. They were paving the way for some of the reforms he had been advocuting

When Gen Mitchell slips in among the fighters who made the mistake of thrusting at opponents in high places he will feel at home

## Privilege.

Undentably refusal of Samuel Leibowitz participate in the defense of Bruno Hauntmann has had a direct effect on the popular altitude toward the prisoner. Mr Lejbowitz a examinations of Hauptmann have convinced him of the condemned man a guitt and he refuses to enter the

Dicause as a lawyer who had been invited to make an investigation by outside parties Mr Leibowitz had every resset to be interested in entering the case his refund) to do so satisfies many of the doubts which have been fermenting in popular discussion of the case Mr Lelbowitz thinks Haupimann is guilty He thinks he had accomplises in the Lind bergh kidnaping case. He thinks there is no possibility of making the condemned

man reveal the identity of his accomplices There represent the popular conclusions it would be more satisfactory if Haupt menn were to clear up the mysterious de talls of the kidnaping. If he chooses not to do so he will alle with the secreta undisclosed. There seems no way to deny him that privilege if he is determined to take advantage of it.

## Nothing To Fear. Apparently members of the house of

representatives who are supposed to be in favor of the Townsend plan have taken to heart the statements of its promoters that they have nothing to fear from an investigation Approval of an inquiry was voted Wednesday afternoon by 240 representatives and denied by only 4

It seems that congressmen are auxlous to contradict the rumor that the Townsend movement has them frightened. The ceived an amazing amount of support Fortunately everybody is satisfied Townsend organizers aren't afraid of the consequences of noting to investigate. The whitewash has been applied early Wheth er or not it will hold up remains to be «есп

## A Disgrace to Jingle Bells.

Germany is far away and the winter program of the Olympic games scarcely is calculated to produce intense excitament jet the United States has been keeping half an eye on Garmlach Partenkirchen and what goes on there

It has observed the following things on the average

No. 5.2. 1 0 1811-118 5 0 7 1 200 500

That Americans with the exception of those fellows who ride bobsleds are but children in the development of winter aports

That a couple decades of sitting down to watch rugged young men etruggle with each other hean't contributed to the rug gedness of American athletes as a class That the country which will sing Jingle Bells' on the slightest pretext is just beginning to get acquainted with the things which can be done with skis and skates That the prevailing opinion of most patriots concerning the general superiority

of American athletes over all other ath-

less in hit or y footbah but exceedingly that Germany so far his been doing

profit good y's with the Olyttic games But the third that eally matters is the poor altiett, of American albleter lit wirter spects They has male Jingle Pella goard like a chess on, to make the world think As rivers (+1) kn/4 how to have fun in the winter time

## Not So Long Ago

The great men of the fit is a second of men new flying the list of the est temporaries of Girth Warning The bond of the gree nt with the natiactial teginiting lift is a to a

He was also a fit billionist a fact Americans neglect to eften lie was hated heartly by many of the men whose names now are mentioned with his as founding fathers. He was a nill nist whose leader ship of the my disclorial army was ques Boned more free this it was prelated during his day of told. An aristocrat by birth and training like aring affronted George Washington become the first

president of the United States and prompt ly discovered what pulltient blokering could be like in the n w nation he had done so much to create. He had been doubtful many times of himself. As Publident he must have been doubtful of his struggling young country too It was to be many years before his cushcipement as the here he now plainly deserves to be in compart son with the forgotten little men who would have liked to remodel blin to con form more closely to their own pattern Americans are struckly indifferent to

## Glancing Backward

TEN YFARK AGO

It was Monday Fob 22 1938

Police at Troy O were infilled in their efforts to find clure in the mystery sur rounding the murder of Mis Frances Drake Neshitt wife of Jack Neshitt Her hody had been found in the tati-inh at likelr home. Both Mr and Mrs Nushitt were former sludents at Ohio Slate university where they had been prominent in campus activities.

A checkup showed that more than 6000

campus activities.

A checkup showed that more than 6000 persons had attended the Marion and show held from Thursday to Sunday in

clusive Mailons street railway service wha stopped for a half hour in the afternoon by shutting off of the electric current in the framefor circuit.

Announcement was made that Will

Rogers would appear here Murch 11 under susjees of the Matten Lecture Rocttal

hib Mr and Mre Homoi Cole ontertilised his N. C. club at their boma on Marv

TWENT'S PLANS AGO It was Tuesday Feb 22 1916 Announcement was made that President Wilson in the future would give full When in the future would give full publicity to this country a foreign celetions. This was expected to be done larked by through speeches and messages of the President delivered to the house and senatoforeign relations committee. The decision was made multiple because of lacrosing criticism of the administrations politics. The German Zippilm 17.77 was destroyed by known high surfacement and

stroyed by French high anche guns and the entire crow of 30 way 1 Med. The Zep-pelin was brought down as it flew over the Allied lines apparently on its way to bombard Paris.

As a test of the mation's wireless pre-

paredness a message was flush d to about 25 000 Amuleur licensed operators in the United States from Rock Island arsinal Illinois for relay throughout the country it was received here about midnight by Raiph Wolfinger of couth Sinte street Hearth of the transport of the Line William school at the street Hearth of the Line William school at the Line William received it from the Lima wireless station Iligh school

## Restrictions Still Confront TVA

Attorneys Expected To Hold Operations Within Scope of Supreme Court Ruling

BY DAVID LAWIETNEY copyright 1946 by the Murium star WASHINGTON Feb 22 The TVA to not likely to attempt to abuse the slope of the surjective that minimal to that so far as the low legarithment of that government agency is an influence in thuying policy.

This Implication as to the future arises out of a study of the manner in which the IVA case was fought and won by the government it turns out that James the government it turns out that James fawtrenes. His general solicitor in harkers the law Illian of the TVA played dominant rol. In illing the erope of the case very early in the proceed not term for the TVA whereas John Lori O'Belan was special counsel only for this particular. When the there are the particular litigation this dispole any in fression that the TVAs pigol appoach may now he changed in other words there remains a continuit, about it legal strate, of the TVA which is do not be convictions held by Mr. Fl.

It is intristing to note that Mr. Fix a Democrat served from 1979 to 19 d in the department of justic unfor the Hoover rigime and was retained by Altorney General Cumplings as at list is sistent to fight some of the cases in the federal courts involving the nemarks in insection suits growing out of new design

What Mr (Fly did however in his army court of Alatama and telere the circuit court of Alatama and telere the circuit court of appeals is of for reach a, a, of frence not only because Chief Justice liughes accepted the finding of fact made in the lower court but her use the whole future of a power development by the reachest the court but the reachest by the reachest the court of the reachest by the reachest the court of the cour future of power development by the government erunient is by no means as definitely established as some members of coursess who have been interpreting the TVA decision in relation to their pet project would have the public belie (

What most outsiders do not know is that What most outsiders do not know is that the TVA really has a billbant levi staff and that whatever may be the lopes of ambitions of the policy making sil of the IVA whenever the mater of what can or constitutionally added it is sife to say there are not holing to be any chances taken that are not justified to the constitutionally added to be any chances taken that are not justified. by the aupreme court decision

Thus all the supreme court has dreided is that Wilson dam has ben constitutionally constructed shill that a sil Messre O I rian and Fly asked the court to decide So far as any other dim is concerned the question is still conjectural as to whether the princip! Jaint down of the court can be made to apply. Every case will have to be fought of the facts as they arise and this a proper assumption after a study of the record by those who know it to predict that no lawyers with moment are probably more familiar with what can or cannot be done by TVA than the legal staff of the TV.

All this is not in any way to detract from the large consequences that may flow from application of the principle tail down by the supreme court de-cision. This is many respects in far more powerful as a circlification as well as justipowerful as a cinfiliration as well as justification of the federal governments conservation policies of the past 40 years thus it is as a settlement of a special question affecting the PVA development

In brief the federal governments right In brist the federal governments right to develop its usen haltern tesources has been affirmed But doos this mean inevitable competition with business? Congress must decide first how for it wishes to go as a matter of practical government in introducing elements of government competition with industry When a statute has been transfer to add to the competition with industry When a statute competition with in interpretable that been passed involving direct competition or when under the TVA law (tack for in the mything unconstitutional is attempted in the method of thaposing of the surplus power all sorts of questions also opened up for further adjudication.

The fed ral poseinment may dispose of surplus poser may acquire transmis-He simples pover may acquire transmission lines to circy the power to a fair market but it presumably cannot use its funds or he foremental authority to violate the luc process clause of the Constitution. This means it cannot take its property of private companies away from them without lawful compensation and may let that forces a private company out of business will have to stand the pany cut of husin as will have to stand the test of Inquiry to how far the federal government through the PWA or any other or agones seeks to Influence the so-called fair market or purchasers of electric

## Behind the News

Men and Affairs Under The Washington Spotlight B) PAUL MAILON

WASHINGTON Feb 22 — The all revealing inside on the London mani conference funny business lately is that the conference lust ed too long. At least that is the joilte way the diplomats would describe it. The suitors have a letter word for what languaged. better word for what hannened They know the United States as usual got gypped

The state department will never so but corinin statesmen in say so but certain statesmen in that department wanted our delegation to come home when the Japanese withdrew The navy however wanted to hang round The admirate desired to see what the other powers Britain I rance and Italy would do

The diplomais knew serv well what is would do namely drag concessions out of us and then tangle the conference up in European politics. That is what they always have done. That is just what they did this time This may explain to the perplexed Jos was they did this time. This may explain to the perpieved conder why both President Roose well and Secretary Hull found themselves extremely bury with other matters when the Prench ambassander brought his 35000. ton buttleship troubles to then the other day

It also explains as nothing else could that international confer-ence history always repeals itself Tonnage

No official statement will aver be made about what happened on the inside at London but you may accept the following as approximately correct

mately correct

The pet United States cruiser is the 10000-ton ship. Our smades refused to concede the British demand for a limitation on this typeat the 1927 conference. It specked the conference but asked the conference but asked the conference but asked the conference of the British ket us this time into a five-year limitation on construction of that type of years and strongly against our will The built was a promise to forego their insistence on reducing the size of battle. on reducing the size of battle ships from 35 000 tons. That looked good to us because the \$5 000-ton ship suits our nam. We anned particularly to avoid the proposed British reducition to a 25 000-ton limit. The desi looked

Lut as soon as the take wis accomplished to and behold the French suddenly began to plus French suddents bogan to pine and howl for it all ships on the seas—a 27000-ton hattleship limit was just about the thing the Fritten had given up

Fungicious

Now no one will ever be able to prote that the Fig. ch took up the old examined Brillish position be cause of some secret under taoling they had with the Brillish Nor all subsequences to the characteristic of the secretary of the se will anyone be able to disprove it to the satisfaction of some of our to the satisfaction of some of our ligiomate. They have a deep surport in whether true or not that the British got the cruiser concession out of us and then induced the French to fight the battleshiftsaue for them. On top of it all the French started dragging in European political disputes to such a flagiant, extent that our Mr. Davis had to object Even Mr. Hull found it necessary at a press conference to say that the United States went into the conference to discussional matters and nothing else.

naval matters and nothing else Dicht Talk

Among 130 000 000 people only
Santoi Vandenberg is talking out
loud about the lost issue of war dobts. However the subject has intel aroused new unobserved in terest among officials certain top flaincial authorities and even a

finincial multipolities and even a couple of Furopean analons. Hanacial talk centers around the advisability of eliminating this british to world trade and under standing. A good many authorities agree that settlement would do more than anything else to promote better business. Certain nations accretly sent over unofficial feelors for a 10 per cent settlement before the last instalments came due Other thadquarte feelors are reported to have been reported to have been

ers are reported to have been made lately.

The trouble is that the only practical way to get them to pay anything substantial is to lend them twice as much as they pay. That deprives the subject of interest for most authorities. est for most authoritie

To Take Game 35 to 33.

HARDING HIGH school's hope of winning the second consecutive undisputed North-Central Ohio league basketball championship was dimmed last night when the Ashland Hilltoppers snapped a thirteen game winning streak by scoring a 35 to 33 victory over the Presidents

It was Bus Hockensmith, Ashland guard who tossed llong basket from near the center of the court, that gave his team a two-point margin in the final forty seconds

Harding's superior brand of play kept the Ashland team training until early in the third quarter except for a brief moment when they deadlocked the score at 1 ! in the opening minutes. With a burst of speed which had the Harding team reeling from its suddenness the

Discusses Levy Prospects

Turning to a discussion of a levy as the most logical source of additional revenue, Mayor Smith said, "If a levy proposal is presented to the people, the public will have a mightly good case before they will vote for it. They've heard threats and arguments before and it will be diffinenced for convince them of the need added cost of crime might mare than might.

"It is doubtful, in my onlinen "It is doubtrul, in my opinion, that a levy sufficient to pay full calaries could be passed. Too many persons privately employed are working under reduced pay schedules to make the public feel like voting full pay for public em-

ployes.

"The police and firemen pension business must be straightened out before we could expect the public to support a levy. As far as I'm concerned, I'll fight the levy Business activity approached a if part of the money is to be used for these pensions. Do you think people would pay any attention to levy arguments with able for tecpening indefinite. The Newalk High school cancelled a Newark High school cancelled a early forties after 20 years of service at a pension of \$100 a month? There are too many people older than these pensioners who have to go out and scrape to-gether a living and enough taxes to help pay the pensions. We don't have to go to Columbus or Washington to start correcting evils in government. Let's have a little

"Once this pension system is abolished, the people could set up an equitable plan, if they wished. Take the railroad plan, for example. As I understand it, a man can retire at 81 after 30 years of service at a pension of 88 a month—that's for an employe who has been making \$120 a month. For each additional year he stays, he gets an increase of one-fiftenth of his salary up to age 85. However, the railroad man pays in half of the money spent for pensions. Compared with that the tussell Tidban.

American Legion possor the projection would sponsor the projection would sponsor the projection and see that it is carried through physicians emphasized that they had found no indications with ever, the populations with ever, the populations with ever, the populations with ever a quantities of 19 phoid toxin anti-toxin rushed here from Columbus.

Wells drilled between the Tuscarawar and Walhonding rivers water carawar and Walhonding rivers are Cochocton's present water source. B. V. Bevier, health described and suddent congineer, said a sudd

spoke to the \$22.200 owed for street. In revenue the first year as a relights for the remainder of 1936.

Of this he said, "I suppose the best plan would be to turn out all of the street lights, but I have confidence the C. D. & M. will do twant is right about that bill. I don't know how much they'll cut it, hut I'm sure they'll make it right.

right.
"Heaven knows what to do with the water company and its \$25.800 upt to replace these losses was the for water hydrants this year, It's sales tax, the diritiest tax in Ohios no use to get mad—you all know history. It's a poor man's tax. It water company. However, it's voted for it because the governor

In large with they are frozen over the water company. However, if one cannot not the easy layer of ice anits off the oxygen supply which ordinarily counteracts any forcers matter that may find its way into the water, Since the Marico water come wells 150 to 100 feel deep the danger of contamination from this cause is very timore, he said.

Pesides the unusually safe source of the city's water, a treatment incidental to the softening process is five that might be present. Mr. Whysall said.

The Marion water is also free from the insavory taste that develope in water taken from streams in extended cold periods as a result of the presence of organic matter, Mr. Whysall said.

POLICE CHECK UP

ON DIAMOND RINGS

The Amerelated Private of the water company is the safe that water is also free from the city's water, a treatment incidental to the softening process is five that might be present. Mr. Whysall said.

and salaried employes unless some of the city's contractual obligations can be reduced, he said.

He said that some curtailments of contractual obligations are allowed to grant the said of contractual obligations are allowed to grant the said of contractual obligations are allowed to grant the said of contractual obligations are allowed to grant the said of the public and that is whole-heady being considered, including elimination of the present setup of pollecemen's and firemen's pensions which would cost the city \$11,711 for an increasing serioment competition.

The major spoke of three possible cources of additional revenue. The major spoke of three possible cources of additional revenue. (1) a sewer tap tax, (2) refunding of bonde falling due this year and (3) a special city operations within its income the Columbia river and (3) a special city operations within its income the Columbia river and (3) a special city operations within its income the Columbia river and (3) a special city operations within its income the Columbia river and (3) a special city operations within its income the contribution of the tax levy but added "Don't misunderstand — I'm not advocating a levy. I wasn't elected to go out and dig up more money for federal trade combley if they feel they want it. He was critical of the other two possible sources of revenue. On his charge is conditional income tax, wasn't they feel they want it. He was critical of the other two possible sources of revenue. On his charge condition of the other two possible sources of revenue. On his charge conditions of the public and that is whole-heart in making sufficient curtain the city's operations within its whole-heart distribution of the public and that is whole-heart to bring the combination of a second of the city's operations within its income twenty with the city operations of the second revenue. On his charge to a second revenue and the city's operations of the second revenue of the city's operations of the city's operations of the city's operations wi

The mayor asserted the administrations obligation is fulfilled and the pay off certain bonds, but if those bonds are refunded and the power government may used for operating purchers review said "ether's review said "et

those bonds again. He added he would be willing that council refund bonds, if necessary provided the people "realize what we're doing." He said holders of T5 per cent of ac bonds to be refunded must consent to a refunded must consent to a refund before it can be voted.

Discusses Levy Prospects

I tunds, he repeated.

Speedy Action Required the emphasized that if the cities should be taken. Council must act by March 2 or 3 to get the levy proposal on the ballots in the major then called for a general discussion. The substance and discussion.

than offset economies than might

than offset economies than might be effected by laying off men. I'd be willing to pay an occupational tax, if necessary, to keep them at their present attength.

J. W. Llewillyn of St. James street—How much of a levy would it take to raise \$80,000 and solve this problem? Mayor Smith esti-mated two and one-half mills would be needed to raise \$80,000. be needed to raise \$80,000.

R. G. Williamson of Carner a R. G. Williamson of Cartes enuc-Would a one-mill levy enable you to keep on all firemen? Mayor Smith said it would help.

Mr. Liewellyn—The city's like an automobile without gasoline. If we want to ride, we must pay. I'm in

automobile without gasoline. If we want to ride, we must pay. I'm in favor of offering a two-mill lavy to the voters. If they won't pay they can't kick if the car won't run.

Timothy Caldwell of Marion-I'm a PWA worker and my income lan't big. I believe, though, that a two-mill tevy is the only solution. Mayor Smith-Our county representative has just discussed the possibility of a relief levy for the county. I want to add that the

seniative has just discussed the possibility of a relief levy for the possibility of a relief levy for the county. I want to add that the county already has turned over to the city the furnishing of medical attention, utility bills and clothing for relief clients. These items may require \$60,000 this year and we haven't a cent to pay it. While I'm on the subject of outside expenses the city may run into, I might as well mention that purchase of the Marion Water Coplant is conditioned on payment of all back bills for hydrant rentals. They amount to \$21,000 for 1930 and are part of a \$50,000 deficit for the year. If we pay the hydrant bills, we'll have to pay the rest of the deficit. If the people vote on May 12 to buy the plant and we have that expense to meet, council will "aweat blood."

County Representative Thomas—While you're talking about financial problems for both the city and

adopted and we tolk open of these people they didn't need to pay taxes uny more. The county lost \$100,000 in revenue the first year as a result of this.

"In 1831, when I was county audi-Oblions \$50,000,000 in taxes. Income came the vote on the 10-mill limits tion, which saved Oblionas another \$50,000,000. The only thing brought out to replace these losses was the sales tax, the dirtiest tax in Oblionations.

J. H. Mann of Park bonievacu-We hear that firemen and pollog-men take big risks. Fin a carpen-ter and Ull say carpenters take as-big risks and don't get paid as-

much.
Floyd Zwich, president of the Oakland Brosters club—I'm opposed to pay cuts for firemen and policemen. I think penalons should be maintained. If swieries are cut, private industry takes that as a lead and cuts its men still lower.
Levy an occupational by the agent. Levy an occupational tax, if neces

James Brads of 312 Keneington James Brad, of 312 Keneington place—I've wot the solution, Start a nationwide raifle to sell the city parking lot. Sell chances all over the country for 25 or 50 cents apiece. You'll get more money in six months than you could get in 10 years by selling a fourth of the money in Marion. You could get 11 NOOM; or the country of the money in Marion. You could get 11 NOOM; or the country of the money in Marion. get \$1,500,000 out of that property.
Timothy Caldwell-Why not set

Theosiny Caldwell—Why not well the airport?

E. F. Paiton, coal dealer—Live within your income.

H. L. Dowler, attorney—As I understand it, the administration wants to leave the matter of a

wants to leave the matter of a levy up to the people instead of asking the people for it. The way to do it is to initiate petitions asking for a levy and have it placed on the ballots next May 12. Cilizens can do that.

Gayte Owens of Sheridan road —Put up a lovy. It the people defeat it, it's their decision. I'as opposed in reductions of research.

feat it, it's their decision. Too
opposed to reductions of personnel
in the police and fire departments.
A. C. Vegt of Sheridan road—
Let's have either an occupational
tax or a levy.

## 60 HORSES 60

WEDNESDAY, FEB 26, 36 1 30 P M H C KLINK BARN BUCYRUS, OHIO

BUCYRUS, OHIO

On above date we all hold Our Next Elg Auction Mr Magnes will have one load here for the sale Ben says this will be a good load of horses. Mr Harold Brooks and Myself will have a least 25 head of Herne Horses for this sale consisting of one guir borrel Cotts 3 years old this is an outstanding pair two good pelr of Gray Mares one pair to foul heartal god Sorrel and Roan Irangs and stag! horses also one pair of Mule. If you can use any horses you will no like a right trouble to find a good scheding her if you will attend our soles and I roully think this a good time to buy them. I still think they are going to be a lot higher before many weeks go by Hope you can arrange to be with us next Wednesday if you can use a horse or not we will endeavor to make. It both pleas and and norditable to you for endcavor to make it both piens ant and profitable to you
